

# MASTER BUILDERS ASSOCIATION OF VICTORIA EXCELLENCE IN HOUSING AWARDS 2006

This contemporary home in Blairgowrie, built by D C Construction, demonstrates "extraordinary precision in manufacturing, installation, framing and final plastering", with the end result being a house that breaks new ground with innovative construction techniques. Pages 3 and 6

## GREAT EXPECTATIONS

# Is your builder a Master Builder?

### MAJOR PARTNERS

### PROGRAMME SPONSORS

Congratulations to all winners and entrants in the 2006 Master Builders Excellence in Housing Awards. Showcasing the outstanding craftsmanship and professional standards of members of the Association, the Awards demonstrate that Victorian builders continue to perform work of a world class standard. With a 131-year history, the Master Builders Association of Victoria continues to be the leading service organisation of the Victorian building and construction industry.

Make value for money, quality, innovation, functionality, and safety your priority and ask yourself, Is Your Builder a Master Builder?

The Master Builders Association of Victoria thanks our sponsors for their contribution and support of the 2006 Excellence in Housing Awards.

# MASTER BUILDERS ASSOCIATION OF VICTORIA EXCELLENCE IN HOUSING AWARDS 2006

**THE WINNERS**

## A five-star address

### BEST SUSTAINABLE ENERGY HOME

Sherbrooke Design & Construction, Waterways

The distinctly modern "Autumn 39" is a display home with a difference, designed to be environmentally passive, yet stylish and contemporary. Soaring ceilings, wide halls and uninterrupted views from the windows at every turn complement the open-plan design. This home has deservedly received a 5-star

energy rating through strict adherence to Greensmart best practice. Examples of this include the northern orientation of all daylight living areas, cross-ventilation, thermal barriers, noise abatement, Megamann low wattage lighting, AAA rated

tapware, Solitaire hot water system and back-up natural gas unit, "water wall" rainwater modules/tanks ... the list is endless. The exterior of the home cleverly utilises varying materials with thermal qualities without compromising aesthetics.

New home?  
Growing family?  
More space?

With over 20 years hands on experience in building, we deliver a level of service and care that you would expect from a multi award winning builder.

Exceptional quality is our promise to you.
